Bag Packing Machine with Stitching Machine for 20-50 kg (Single Head And Double Head)

Salient Features

Product : Powder

Quantity/Capacity : 20-50 Kg. (Other capacity on demand)

Speed : 1-3 Fillings Per Minute / head. (2.5 Ton/hour/head)**

Power : 3.5 KW, Single phase. (For single head)

Packing Material : Bags

Filling System : Weigh Metric Filling System (Load Cell Based) through auger screw

- Compact and robust machine.
- Bulk & Fine Feed System for Accurate Filling (Double speed system)
- Heavy Duty Load Cell
- Heavy Duty Stirrer System
- Horizontal Auger Screw
- Digital Panel for Weight Setting
- Heavy Duty Bag Clamping system (Pneumatically operated)

Optional

- Automatic bag stitching machine
- Belt conveyor 12" belt width x 8ft/10ft/12ft long
- Screw Conveyor for feeding the material to hopper

Band Sealer Machine (Heavy Duty)

Salient Features

****Capacity :** 1Kg-20 Kg. (Max Pouch Height 500 mm)

Speed : 6-8 Meter. Per Min.** | **Power :** 1.5 KW, 220VAC, 50HZ.

Conveyor Length : 1500mm | **Conveyor Width :** 200mm

Sealing Width : 10-15mm | **Weight :** 200 kg

Temperature Range : 30-250°C

Machine Dimension (mm) : 1550(L) X 550(W) X 1800(H)

- Sealing with knurling impression for perfect integrity
- Pouch guide system for straight sealing
- Packing Material : Heat sealable laminate pouches
- Forced air cooling system for pouches after sealing
- Digital temperature control system for easy display and accurate control of the temperature of the heaters
- Manual (hand wheel based) up-down system for conveyor to adjust different height of pouches (Min.5" - Max. 20")
- Special sealer engage/disengage system

**Subject to technical approval by our team

ISO : 9001-2008
